Organization: This class meets Tuesdays from 11:00 – 12:15 for lectures, and on Thursdays at the times below for small group discussions. This is a survey course in bioethics, for advanced undergraduates and graduate students. Our goal is to familiarize students with the range of issues and arguments found in the literature of bioethics, and to encourage independent and critical thinking and writing on these topics.

Lecture: Tuesdays, 11:00 – 12:15, 270 Soils

Discussions: Thursdays

DIS 301	11:00 – 12:15	594 Van Hise	Wells
DIS 302	11:00 – 12:15	355 Van Hise	Fagan
DIS 303	9:30 – 10:45	474 Van Hise	Wells
DUS 304	4:00 – 5:15	123 Van Hise	Wells

Office Hours:

Streiffer 2:00 – 3:00, 5123 Helen C. White

Reading: The primary text for the course is *Ethical Issues in Modern Medicine*, by Bonnie Steinbock, John Arras, and Alex London (6th Edition, 2003). It is available at University Bookstore. Page numbers that follow are keyed to this book.

Grading: Students will be evaluated on the basis of weekly quizzes (20% total), based on the readings for that week; a 1200 – 1500 word (4 – 5 page) mid-term paper (30%), and a 2400 – 3000 word (8 – 10 page) final paper (50%). Attendance at lectures is required and can affect your grade. Put your name and discussion section on the first page of the paper, along with a final word count. Papers must be submitted either on disk or by e-mail attachment, but either a disk or printed copy must be delivered on the due date. The final grade can be raised or lowered by unusually constructive participation in discussion, or by an unusual lack of it. The mid-term paper is due at the beginning of class, Mar 9; the final paper at the beginning of class May 4.. Never turn in the only copy of your paper.
